

Types of landscapes

LANDSCAPES

The area of land where you live is often called its **LANDSCAPE**

Just as each area can be different from the next so LANDSCAPES can be different.

If you have a single view of the scenery around you it is possible to say that you are looking at the landscape.

Landscapes are different in different places. Below are some examples of different landscapes.

River landscapes , one in Scotland the other in London.

Mar 22-10:57

Two pictures of a mountainous landscape

Two pictures of a coastal landscape

On the next pages are 5 different types of landscape. Put a name to each of them.

Mar 22-11:15

Put a name to each picture landscape

(a) Write the answers in your book.
